Date: Monday, July 28, 2014 4:36 PM

Hi all,

Below, you will find a screen shot of an email from Jeff Berwick to me on August 26, 2012. This email shows how his daily life was most of the time that I was associated with him, including the time that I was out looking at the land that was to become GGC. The email below was sent to me while he and I were in Asuncion, Paraguay, two days before traveling to Chile to view land for GGC. The morning that we were scheduled to view the land presented to me in July of this year by Mr. Bert Haywood and John Cobin, Mr. Berwick elected not join me, John Cobin and German Eyzaguirre to tour land near Curacavi and other areas of interest, as he was pre-occupied with company from the night before, when I knocked on his door to go look at the land that was to hopefully become GGC. Mr. Berwick departed for Acapulco the day, which as originally slated to be the first full day of our trip to central Chile, in order to learn more about the area and the country.

It has come to my attention that many rumors are flying about regarding me, GGC and how things have been managed. I am available anytime to talk with anyone here who may have questions about GGC, my involvement or the actions of some Bcc'd here, who, in my opinion, have things to hide from those they are attempting to persuade.
