Jeff,

As mentioned in one of my earlier emails a few hours ago to you, and those copied here (I believe), you will find two attached documents, which are in urgent need of your signature, so that we can officially dissolve the old Galt's Gulch Chile S.A. entity, which you had 35% of. We must hold this quorum on Friday, as outlined in the attached documents, so that we can then have as airtight of an injunction against Freedom Orchard (for violating their non-compete with GGC) as possible, as well as a more airtight defense, should Cobin and/or Eyzaguirre try to sue GGC for whatever reason, which I have showed to you in writing that Cobin more than likely intends to do and Eyzaguirre is known to do.

Please sign both the English and Spanish versions, fill them out completely and accurately, scan them and email them back to all copied here.

**To your freedoms,**

**Ken Johnson**
